

Covid-19 preventative behaviour and symptoms study

The University of Southampton are looking to recruit members of the public to take part in a large-scale survey on the preventative behaviours people are taking to avoid catching COVID-19 and the long-term effect of those that have suffered from COVID-19 during the pandemic.

The survey is aimed at everyone and the specific link to it is shown below:

<https://pharma.unige.ch/limesurvey/index.php/326544?lang=en>

Further details about the project can be found [here](#).

As a thank you for your participation between now and March 2021 the University are awarding over 60 vouchers (ranging from £5 to £500) as prizes to be won. See the survey for further details.

HELP US UNDERSTAND WHAT WORKS TO PREVENT AND TREAT COVID-19

**What have you done to try and prevent you, or a loved one,
catching Covid-19?**

If you became ill, what treatments did you try?

By filling out our survey, your answers will be combined with thousands of others from across the world. Together we can work towards a better understanding of Covid-19 and how to beat it.

Anyone over the age of 16 is eligible to participate in the study so please spread the word and encourage others to complete it. Everyone who completes the survey can be entered into a prize draw to win one of 60 vouchers worth between £5 and £500.

For more details and to complete the survey
scan the QR code or go to www.rtcovid19.com

Ethical approvals: Southampton ERGO 06975, IRAS 289510, Pomeroy version 3.0
Recruitment ends 31st March 2021
