

## **M2 junctions 5 to 7 drainage and barrier upgrade**

Monday 27 November to Friday 1 December: there will be lane closures on the M2 coastbound between junctions 5 and 6 overnight between 8pm to 6am.

Sections of the hard shoulder will also be closed 24/7 on the coastbound carriageway between junction 5 and 6 from 6am Tuesday 28 November to 8pm Friday 1 December.

Sunday 3 to Thursday 8 December: there will be lane closures on the M2 London-bound between junctions 7 and 5 overnight between 8pm to 6am.

Sections of the hard shoulder will also be closed 24/7 on the London-bound carriageway between junction 7 and 5 from 6am Monday 4 December to 8pm Thursday 8 December.

As we need to remove the old barriers to complete our work, we'll be putting in narrow lanes on the M2 in the new year to keep everyone on the motorway safe. We'll be starting our work in the central reservation, moving to the hard shoulder in the spring. We'll provide more information in these updates as work progresses.
